Sponsor a graduate student to attend our Saturday CE Course and luncheon. Send an additional \$60.00 with your registration. This money will be placed in the Mel Noonan Fund for resident development into private practice and organized dentistry.

COURSE DESCRIPTION:

TITLE:

A review of current evidence-based guidelines for non-restorative management of caries lesions in primary and permanent teeth

COURSE DESCRIPTION:

The objective of this presentation is to provide an overview of recent evidence-based recommendations for the non-restorative management of dental caries lesions, both cavitated and non-cavitated in primary and permanent teeth. Discussions will focus on non-restorative strategies for caries lesion control and arrest, such as fluorides-including SDF, sealants, infiltration, etc.

LEARNING OBJECTIVES:

Upon completion of this continuing education course, the participant will be able to:

- 1) Compare and contrast the non-restorative treatment options to treat cavitated and non cavitated caries lesions in coronal surfaces of primary teeth
- 2) Compare and contrast the non-restorative treatment options to treat cavitated and non cavitated caries lesions in coronal surfaces of permanent teeth
- 3) Compare and contrast the use of strategies for prevention and management of caries lesions

SPEAKER:

Dr. Margherita Fontana

Margherita Fontana, DDS, PhD, is the Clifford Nelson Endowed Professor of Dentistry in the Department of Cariology, Restorative Sciences and Endodontics at University of Michigan School of Dentistry (U-M). She is currently co-director of Cariology courses, and cariology discipline co-coordinator at U-M. As a principal investigator, she has received research grants associated with cariology from the National Institutes of Health, the Centers for Medicare and Medicaid, the American Association of Pediatric Dentistry, the Delta Dental Fund, DentaQuest, and private industry amongst others. She has over 125 papers published in peer reviewed journals, such as Journal of Dental Research, Caries Research, Journal of Dental Education, Pediatric Dentistry, Advances in Dental Research, Journal of Public Health Dentistry, Journal of the American Dental Association, British Dental Journal, etc. She was the 2007-2008 President of the Cariology Group of the International Association for Dental Research (IADR), and the 2010-2011 Chair of the Cariology Section of ADEA. In 2012 she received the USA Presidential Early Career Award for Scientists and Engineers (PECASE) for her work on caries risk assessment in children. She was the 2009 winner of the IADR Cariology Research Group's Basil G. Bibby Award in Cariology, and in 2016 winner of the IADR Burrows Memorial Award.
